

Contracts

British Telecommunications plc (BT) operates as our business partner. Their appointment followed a competitive negotiation process. This contract expires in April 2014.

Wherever possible, Disclosure Scotland uses contracts negotiated by Procurement Scotland which are available to the Central Government sector. A directory of these contracts can be found [here](#)

Where there is not a suitable contract to meet an identified need, Disclosure Scotland will open opportunities using the [Public Contracts Scotland portal](#). If you are a supplier seeking to tender for any of our opportunities, you will have to register on the portal.

We currently have a number of contracts placed through the portal.
